C BONDS, at PRIVATE SALE.—The undersigned offer for sale \$200,000 of the Corporate Bonds of the City of Norfolk, with 6 per cent. Interest Warrants attached.

These Bonds were issued to Railrisad Companies in payment for subscriptions, and are in sums of \$500 each, paysible April 1, 1872, with interest on the lat days of October and April respectively, in the City of New-York. They are issued by the Municipal authorities of the City of Norfolk, confirmed by the popular vote, under a special Act of the Legislature of Virginia. Ample provision has been made by the Select and Common Councils of the City of Norfolk to provide funds to meet the interest punctually, and likewise to create a Sinking Fund to retire the principal at maturity.

The population of the borough of Norfolk is about 39,000, and of the city proper about 16,000.

The city debt on the 7th March, 1852, exclusive of the above, was \$501,239, represented by City Scrip. The income for the year 1822 will be about \$61,000, resulting from taxes and lease of city property.

Norfolk, from its central location, its easy access from the sea, its protected position, its ample dimensions and great depth of water, its entire freedom from ice in the severest winters, and its healthy climate, combine to render it a point most favored of nature for all purposes of commerce.

It will be seen by the map that Norfolk, by means of the Seabord and Rosnoke Railroad, is made a principal point for three important lines of Railroad, which meet tidowater within the precincts.

1st. The great Southern route, over the Seaboard and Rosnoke Railroad, passing through Weldon, Wilmington, Manchester, Branchville, and thence to Charleston, or continuing on from Branchville to Augusta, Atlantic, West Point, Montgomery, Mobile to New-Orleans.

2d. The interior or central route, proceeding from Norfolk over the Seaboard and Rosnoke Railroad, proceeds to Lynchburg, and thence to New-Orleans.

3d. The We

line.

In addition to these main lines, there are others accessory
to and connected with them, and by which large sections of
country are made accessible to Norfolk. Apply to

DEREMPTORY SALE of FIRST
MORTGAGE BONDS of the BUFFALO, CORNNIG & NEW-YORK RAILROAD CO.—This Company
will offer for sele, through SIMEON DRAPER, on the 19th
day of May next, at 12 o'clock, at the Morchants' Exchange,
in the City of New-York, \$400,000 of their First Mortgage
Bonds, payable in 1957, with 7 per cent. Interest, payable
semi-annually, at the "Bank of Commerce in New-York."

These Bonds are a part of one million authorized to be lesued for the purpose of completing their road, and are secured by a first mortgage on the entire road and its franchiese, by deed of trust to John A. Stevens, James S. 7
Stranshan and John A. C. Gray, as trustees, and are convertible into the stock of the Company at par at any time
within five years from their date.

Stranshan and John A. C. Gray, as trustees, and are convertible into the stock of the Company at par at any time within five years from their date.

The road extends from Corning, on the New-York & Eric Railroad, to the City of Buffalo, a distance of 134 23-196 miles, and will, when completed, form, in connection with the New-York & Eric Railroad, one of the most important and direct thoroughfares between the Cities of New-York and Buffalo and the Far West, and will connect at Corning with the Corning & Blosburgh Railroad, now being relais with T rail, which extends to the rith iron, coal and lumber regions of Pennsylvania.

On diverging from the New-York & Eric Railroad, this road passes up the rich and fortile valley of the Conhocton River to near its source, at the northerly line of Steuben County, a distance of about forty-five miles—passing through the village of Cooper's Plains, Campbell, Savona, Bath, Kennedyville, Avoca, Liberty Corners, Conhocton and Wayland, thence through Springwater, Conesus, Livouis, Avon (where it crosses the Genesce River,) and Caledonia, it Livingston County, and through Le Roy and Stafford to Batavia, in Genesce County. This part of the line, for nearly its whole length, passes through one of the richest and most productive portions of our State.

From Batavia the line of the road passes westerly in nearly a straight line to the City of Buffalo.

The cars are now running on 25 miles of the road wes from Corning, and it is expected to have the rails laid by the Soth inst, for twenty miles further, when the cars will run 50th inst, for twenty miles further, when the cars will run 50th inst, for twenty miles further, when the cars will run 50th inst, for twenty miles further, when the cars will run 50th inst, for twenty miles further, when the cars will run 50th inst, for twenty miles further, when the cars will run 50th inst, for twenty miles further, when the cars will run 50th inst, for twenty miles further, when the cars will run 65th instead, and the balance as consecutive po

are now nearly completed, being less than the value of the iron and land.

By this arrangement it is believed that the bondholders will be made secure beyond a possibility of doubt, the property of the Company being at all times amply sufficient to indomnify them against any loss.

Temps of SALE.
